Nevada State Board of Examiners for
Marriage and Family Therapists and
Clinical Professional Counselors
Meeting Minutes – March 17, 2017

38. Discussion of Board President Report. (Advisement)

Mr. Erik Schoen stated he wanted to provide an update of feedback in response to the letter that was sent out to all of the licensees in regards to where the Board is at currently. He states he outlined why the budget is so constrained and that it is due to not having increases often. He put an amount out there showing that the Board wanted to increase the fees gradually over 7 years. Some folks are against the fee increase stating that Nevada would be double the cost of California's license. Where other folks are in agreement with the increase; some others suggest a monthly maintenance fee. With this type of open dialogue it gives the opportunity for discussion with some creative ways for increases. He states tht he is not wedded to the idea of a \$400 per year license fee; in fact if we are able to get any increase through it possibly won't be that amount. He states that when he is talking to folks he tries to put it into perspective; there are some people who spend 30 bucks or more on cable per month, or on newspaper or maybe their monthly Starbucks visits and with saying that what is your license worth to you? Not that he has an answer for them, but he wants it to get them thinking in regards what their license is worth to them. He believes that this is an important conversation to have because the Super Board Bill is very much alive and it could pass or could not pass. If it doesn't pass then we definitely need to set the stage for a rate increase so that we can get to the point where Board operations are sustainable at a high quality level. Mr. Hal Taylor states that the \$400 would be a cap and it would increase gradually over time, it won't automatically jump to \$400 immediately. Mr. Erik Schoen states that he has been in contact with the MFT Association and they have agreed to send a letter out to their members. Ms. Marta Wilson states she knows that she knows we are trying to reach the \$400 cap, but the Drug and Alcohol Board charges \$37.50 to their interns for renewing every 6 months and that may be another way to bring in revenue that shares it across the board. Mr. Jake Wiskerchen states that for the audience that is listening the proposed fee increase is just one mechanism in which the Board will create more revenue it rose to the attention due to it being over 30 years since being raised, in no way is that the only way to gain revenue.

39. Discussion of Board Treasurers Report. (Advisement)

Mr. Jake Wiskerchen states that he doesn't have any hard numbers at this time but what he has discovered from looking at budgets from the past 2 years and P&Ls and comparisons and so forth and it seems that some stuff is a little out of whack and it's going to take a little more digging. There is a little bit of hope that if the number of licenses are accurate then the budget may shake out a little more robustly, investigation on why they haven't' been adding up may take some time. In the next 4 weeks I would like to get a hard budget, for at least this year and next. I also want to propose 3 budgets based on different revenue projections so that we are able to play around with numbers and see which direction we want to go in. We currently have 2.5 FTE in the office, they are operation on a 1.75 FTE budget and in order to get the job done well we really need to have a 5 FTE budget ideally we would like 5,5 FTE. The 5 FTE would encapsulate an Executive Director, which we don't currently have we have an acting/interim executive Director in Quinn which traditionally is more like office manager because a ED by definition in most boards capacity attends Legislative meetings and consults with the AG coordinates strategy and she hasn't been able to do tht because there is too much paper pushing going on and her efforts and time are required in the office to maintain status quo and unfortunately our status quo isn't up to par because we are lacking staff. CEU Approval and Investigating complaints are currently lacking. Examination of the statues is

coming along and the staff is able to streamline the process for individuals from other states. As a Board we have been doing things this way and now with examining things we are finding tht things were not as they should have been, so we are continuing to examine things. There is no way around a fee increase because if we had to purge the office or they decided to purge themselves we wouldn't be able to find quality people with the vast knowledge as they have with the pay that we are offering. To the members of the public that are listening the statute allows for Board members to reimburse ourselves, but we haven't been because the money isn't there. We are wanting the fee increase because the staff deserves to be compensated way before we ever think that we should receive that fee. He states that the budget

40. Discussion of Board Staff Report. (Advisement)

Mr. Erik Schoen states that he continues to hear from licensees and the public how much they appreciate what you guys do. The fun part of getting the feedback from the fee increase is hearing from folks because Quinn is doing enough of the interim executive director responsibilities that she should be executive director because of everything that she is doing. I think to Jake's point you would be doing more of the higher order stuff, where you can be doing the representation at legislative meetings and so forth, but currently you are swamped with the day to day duties in the office. He states that he wants to give folks an idea because he thinks that there is a sense that the Board Office runs by magic. I want to give you some insight on a day in the life of the board staff: they are probably driving on a Tuesday or Wednesday and they are thinking about things that they are hoping to get to. They walk in the door and there are 5 interns waiting for them to let them know that their supervisor has passed away. Now they have to allay the panic from these interns and determine what to do because there is no regulation or statute in this specific situation; that may take the whole morning and now it's lunch time and they are trying to recuperate and then something else happens. They try to minister to the very real human needs and juggle the other things in the office. You might call them at 2 or 3 o'clock and you can hear it in their voices that they are beat up from the day, and we can't take it personally if they aren't their normal selves; they may have just had a trying day.

35. Discussion/Possible action related to board's process for addressing complaints and investigations, only process by which complaints and investigations are addressed. (For Possible Action)

Mr. Erik Schoen states that he has good news and may have a more detailed report in April. Quinn was able to send our backlogged complaints to the consultant that the state offered to us who used to work for the nursing board. She has currently gone through 25 of the back logged complaints. She is compiling a report for each complaint so that the staff can follow and she will also compile a detailed report for the Board to review so they are familiar with what has taken placed. He foresees that we will be caught up in the next few months and won't have the backlog.
